**WHAT HAPPENED HERE?**—Despite the crowd of students, school hadn't let out nor was Salem High on fire. The mob developed moments after clothing and a tarpaulin caught fire in the bed of a truck in front of the Salem News building, N. Lincoln, Wednesday. A lone fireman is barely visible in the center of the picture, his quick work in extinguishing the blaze receiving the critical appraisal of a sea of students engulfing the fire truck in the rear. Little damage was caused by the fire.

## Halt To Bingo In County Asked

Prosecutor Asks Ban Pending Court Action

Prosecutor James L. MacDonald announced Thursday afternoon he was requesting all organizations in Columbiana County to cease operation of bingo games until the injunction hearing against the keno game at Lake Placid is heard May 22 in Common Pleas Court at Lisbon.

The announcement came after Judge Joel H. Sharp issued a temporary injunction against operations of a keno game by the American Legion Post 574 at Lake Placid on Monday.

MacDonald said he has mailed letters to police chiefs and mayors of all cities and some villages requesting their cooperation "to take such measures as will insure that my request is complied with."

In his letter MacDonald said under the present statutes of the State of Ohio games run where the profits go exclusively one hundred percent for some worthy cause or charity and not into the operator's own pocket are immune from prosecution or penalty in Ohio.

However he continued "The courts of Ohio, however, uniformly held that to operate a bingo game constitutes gambling. The question is, despite the facts that the profits from such games are given to worthy or charitable causes, and despite the fact that no part of the profits go to any one individual, is the game or scheme of chance none-the-less gambling in violation of law; or to put it another way, can there be such a thing as gambling not in violation of the law?"

MacDonald said in his letter, "It is my opinion that any gambling is in violation of the law of Ohio, even though there may be certain of such transactions which are not made punishable by fine and imprisonment of those engaged therein."

The prosecutor said the above question will be decided when the injunction hearing is heard later this month against the Lake Placid Park Co. operator of the keno game at North Georgetown.

## Nevada Begins Delegate Choice

Taft Leader Keynote Speaker Before GOP

(By The Associated Press)

In Tonopah today, Nevada Republicans and Democrats open two-day conventions to pick the state's 10-vote Democratic and 12-vote Republican delegations. Retired Lt. Gen. Albert Wedemeyer, a Taft leader, was keynote speaker at the GOP meeting and Eisenhower booster commented: "It looks like they've pulled a fast one."

Illinois Democrats, at a Springfield convention yesterday, praised their Gov. Adlai Stevenson as "ideally qualified" for president. They approved such a resolution over Stevenson's protests that he is running only for re-election as governor.

In West Virginia, which holds its primary Tuesday, Eisenhower reportedly was gaining strength. But even his most optimistic backers count on no more than seven of the 16-man delegation to be chosen. Taft has a majority of the candidates for the posts pledged to him. Democrats choose a 20-vote delegation.

Sen. Estes Kefauver's Washington headquarters said the Tennessee has won nearly six times the popular support of his nearest competitor for Democratic nomination. The statement credited Kefauver with a total of 1,809,054 votes in 11 state primaries. Russell was listed next with 332,766.

Also in Washington, Sen. Robert Kerr of Oklahoma predicted the Democratic national convention will deadlock. In an interview, he said he looks for at least 10 names placed in nomination. Kerr, now running fourth in delegate strength among five avowed candidates, said he believes he has the best chance to win nomination after balloting.

## Food Prices To Be Boosted In Few Days

OPS Says Items In 33 Classes May Get Ceiling Increases

WASHINGTON (AP)—Substantial increases in food prices, ranging from one to several cents a package on a long list of items, may be approved by the government within the next few days.

Price control officials said the increases probably will apply to such things as coffee, dry cereals, crackers, canned fruits, vegetables and soups, tuna and salmon and some canned meats.

An official told a reporter some items in 33 of the 36 classes of packaged groceries covered by the food price orders may be given higher ceilings. The method and amount of boost in percentage margins for grocers now is being studied at the highest Office of Price Stabilization levels.

**Keep Earnings Fair**  
One official said the increases are necessary to keep grocers' earnings at a fair level. He said studies have shown that earnings before taxes, especially of chain food stores, are below levels that would entitle them to a price increase.

The margin increases under consideration would give the 12-billion-dollar a year grocery industry about a 1 per cent hike in dollar volume of sales.

Primarily the increase would benefit chain groups, but they also would apply to the smaller independent stores and to wholesalers. An official said no exact data is available on earnings of wholesalers in this group of food dealers.

OPS also disclosed results of a nationwide survey of grocery margins and earnings will be completed about June 15. When the data is ready for review, an official said, another round of increases may be necessary for many types of foods.

**Applies to All Dealers**  
The current increases being considered, as well as any that may be made after June 15, have no connection with a recent emergency court of appeals decision holding benefits of the Capehart Amendment apply to all distributors, including food dealers.

Unless the Supreme Court overturns this decision, OPS officials have said it may mean still another hike in food prices. The Capehart Amendment requires OPS to permit new ceilings figured on the basis of pre-Korean prices plus cost increases from June 24, 1950 through last July 26. OPS has held the amendment applied only to manufacturers and processors.

## Devastating Atomic Gun Developed For U. S. Army

NEW YORK (AP)—An atomic gun developed by the U. S. Army was described last night as an accurate and devastating weapon, providing field commanders with tremendous "finger-tip" fire power—and heralding a new era in the waging of war.

The description of this country's first atomic artillery weapon—a gun that can "hit its target under any weather conditions and give ground troops the kind of devastating close support never before available in warfare"—came from Army Secretary Frank Pace.

Pace said the new weapon "is essentially an artillery piece—but with immeasurably greater power than any artillery hitherto known."

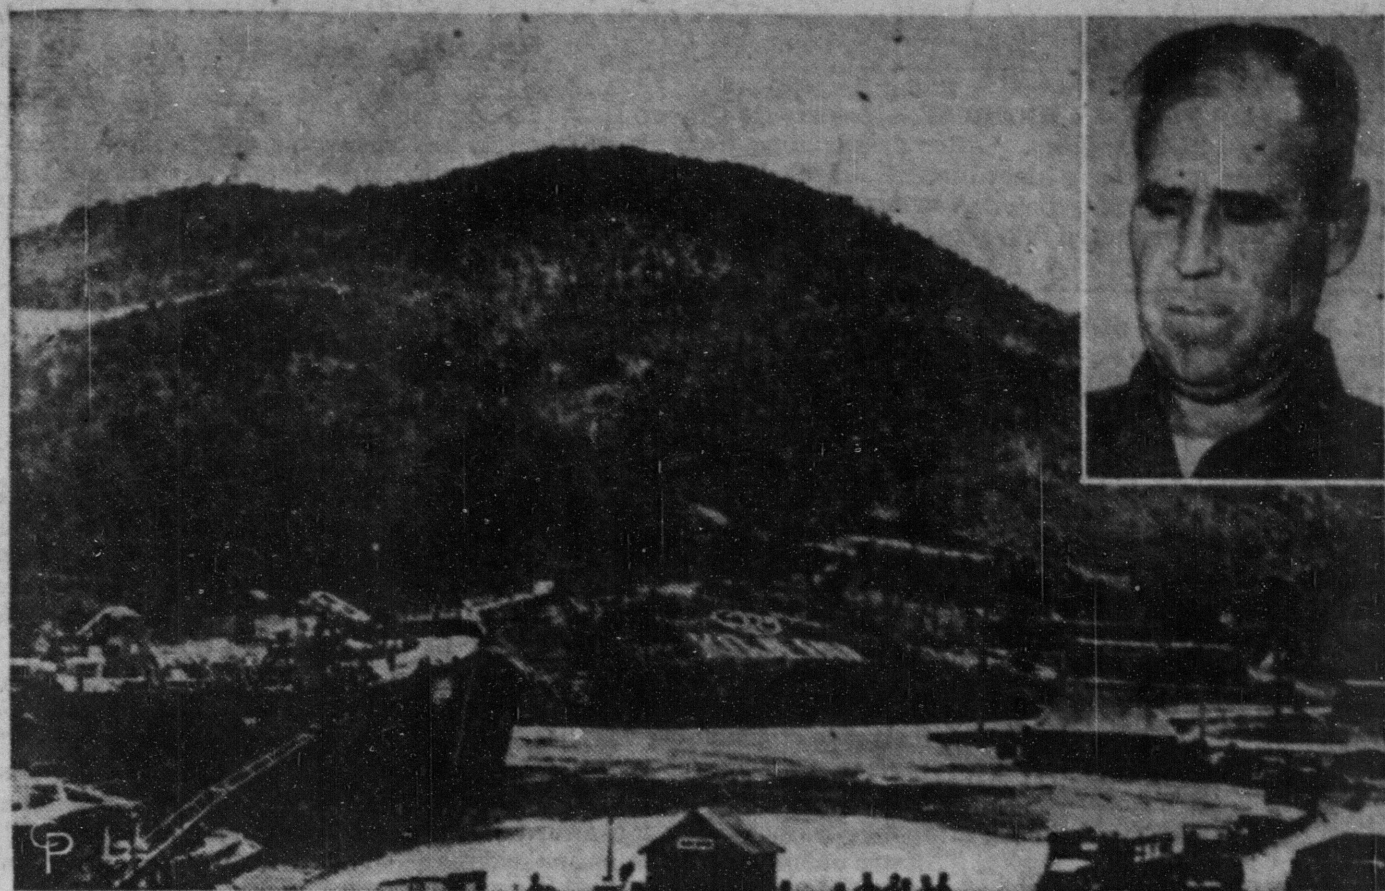

"Such atomic weapons," he added, eventually will bring "significant changes" in the Army's traditional mission of closing with and destroying an enemy.

Pace's claims for the weapon came in a speech before a meeting of the National Wool Manufacturers Association.

The weapon has been tested by the Army with non-atomic ammunition but official specifications

## Red Jets Hit Allied Planes Cutting Rails

SEOUL, Korea (AP)—Twelve fast Red jets swept down on eight rail-wrecking Allied F-80 Shooting Stars today and one of the Reds was reported damaged in the ensuing fight.

The Fifth Air Force did not say how the comparatively slow F-80s fared. Allied losses, if any, are announced weekly.

The battle was fought near Kusan, 30 miles south of the Yalu River which separates Korea from Manchuria.

American fighter-bombers blasted 26 cuts in Red rail lines in the Sonchon vicinity near the Yalu River before noon. Other low-flying Allied planes ripped up 20 troops revetments and destroyed eight gun positions across the 155-mile battle front.

On the western front, Allied troops were back on a hill that changed hands eight times Thursday and today in a hotly contested area northwest of Yonchon.

It was the same hill over which opposing troops waged a bloody, day-long fight last Saturday.

An Eighth Army spokesman said the Reds in their latest assaults used about 80 troops. In one phase about 25 Communists were reported killed.

## SLAYER ASKS CLEMENCY

COLUMBUS (AP)—Gov. Frank J. Lausche was expected to give a decision today on the plea for executive clemency for James C. Edwards, 31, Canton slayer, sentenced to die tonight in Ohio Penitentiary's electric chair.

## Man Who Robbed Dry Cleaning Stores Held Under \$6,000 Bond

William H. Richter, 31, of Fombell, Pa., pleaded guilty Thursday afternoon before Mayor Harry M. Vincent to charges of robbery and assault with intent to rob and was bound over to the grand jury on a total bond of \$6,000.

His capture by police Thursday morning from mistaken information—solved a series of at least eight drycleaning establishment holdups in Salem, Lisbon, Youngstown, New Castle, Pa., Hubbard, Beaver Falls, Pa. and New Brighton, Pa.

The capture culminated a two-hour crime spree which began at 9:10 a.m. when he held up the Peter Pan drycleaning store in Lisbon and ended at about 11:20 a.m. when police surprised him here in the act of committing his third robbery of the day.

After Richter left Lisbon, with about \$10 in loot, he drove to Salem, parked his car behind the Fish Drycleaning Store, and then walked to the Peter Pan Drycleaning Store and forced Mrs. Regina Vignere, clerk, to give him the money in the shop, approximately \$35.

When he fled, Mrs. Vignere dashed outdoors and told Fred Rich of 487 School St., who was driving by at the time, to report the robbery to police. He sped to the police station and inadvertently told the desk clerk that the Fish Drycleaning store had been held up.

When police arrived at the store, they found Richter busily engaged in robbing it and promptly grabbed him.

Richter, employed by a construction company at Darlington, admitted he turned to crime because "I didn't make enough money." He is married.

## Woman Slightly Hurt In Truck-Car Mishap

A woman was slightly hurt in one of three traffic mishaps on city streets Thursday, police said.

A car driven by Floyd C. Hobach of Ashtabula and a truck operated by Antonio Quinn of 1254 N. Ellsworth Ave. collided at 11:15 a.m. Thursday at 1254 N. Ellsworth, causing considerable damage to both vehicles police reported.

Mrs. Hobach, a passenger in the car, was treated at the Central Clinic for a forehead cut and released.

Edward Scullion of 811 Homewood Ave. told police he hit a parked car at 8:30 a.m. Thursday on S. Broadway, causing slight damage to his auto.

Gilmer Coffee of Winona said the globe on a city light pole at 515 E. State St. was broken at 12:30 p.m. Thursday when he backed his car into the pole.

## Neopolitan Found Guilty Of Larceny

Ralph Neopolitan, 22, of Struthers was found guilty of grand larceny today by a Common Pleas Court jury at Lisbon after the jurors failed to reach a verdict Thursday afternoon.

Judge Joel H. Sharp sent the jurors home at 4:15 p.m. Thursday after the judge finished his charge at 3:30 and the jury started its deliberations.

Neopolitan went on trial Wednesday charged with stealing \$1,015 from the Mike Turk farm implement agency near East Liverpool last July 30.

The state finished its case Tuesday morning when Roy Butler of East Liverpool, a truck driver, and George Metrovich, parts manager, testified.

Butler said he was at the garage buying supplies and saw Neopolitan and later picked him out of a lineup at the Youngstown Police Department.

## Koje Island Commander Well-Treated

Red Demands Termed Unreasonable; Truce Talks Today Brief

SEOUL, Korea (AP)—Gen. James A. Van Fleet said tonight he will use force if necessary to rescue Brig. Gen. Francis E. Dodd from the Communist prisoners of war who captured the general on Kojé Island and prison camp.

Van Fleet said he would not give in to the Reds "unreasonable" demands for special privileges before they release the prison camp commander.

The U.S. Eighth Army commander made his statement after a flying trip to rebellious Kojé, off the southern tip of Korea.

## Immediate Release Sought

Van Fleet was under orders from Gen. Matthew B. Ridgway, Supreme Allied Commander, "to use whatever force is necessary" to free Dodd without delay.

The 52-year-old Dodd has been a prisoner since Wednesday, when North Korean POWs seized him at the gates of a compound.

Ridgway said the Communists were demanding "phones, permission to organize, writing paper and some other things" before they would release Dodd.

The Army released only meager details of the new rebellion at Kojé and kept newsmen from going there.

Van Fleet said, "We have not yet been able to determine why the guards didn't rush in for a rescue attempt. That question will be answered by a military board of inquiry."

He expressed confidence that Dodd would not be harmed. The Eighth Army commander attached considerable significance to Dodd's own expressed optimism over an army telephone which kept him in contact with American guards outside the stockade.

## Unreasonable Demands

"However," Van Fleet said, "if necessary, force will be used to effect his release."

He said the bulk of the prisoners' demands were "unreasonable and cannot and will not be granted."

An Eighth Army spokesman said Dodd and Lt. Col. Wilbur Robert Raven of Newton, Tex., were seized while standing at the gate of a prison compound talking to leaders of the 6,000 Communist prisoners.

"When the prisoners grabbed him, it was an organized mob and he was swept inside. Raven escaped."

The army said Dodd has been treated well by the Reds. He communicated with guards posts outside the barbed wire stockade by army field telephone and couriered messages.

Ridgway called the seizure of Dodd a "flagrant and fundamental defiance of United Nations authority."

Meanwhile deadlocked Korean truce negotiators met for only ten minutes today. A U.N. command spokesman said the Reds probably awaited new instructions from higher up.

The 10-months-old negotiations are stalled over the issue of prisoner exchange, the only major block in the path of an armistice.

## Arrested After Mishap

Clarence W. Allen, 34, of Youngstown was arrested at 9:20 p.m. Thursday by the State Highway Patrol on Route 7, one mile south of Rogers, when his auto sideswiped a car driven by Lloyd Powell, 21, of East Liverpool while attempting to pass.

## Congress Sets GI Pay Boost

Early Action Seen  
On Compromise Bill

WASHINGTON (AP)—Congressional leaders today planned early approval of military pay increases ranging from three dollars a month for privates and seamen up to \$65 for two-star generals and admirals.

The long Senate-House deadlock over cost of living increases for 3½ million men and women in the armed forces and other uniformed services was broken late yesterday.

A Senate-House conference committee agreed on a compromise measure providing 484 million dollars of additional pay for those in uniform or who have retired.

It figures out to a 4 per cent increase in base pay and a 14 per cent increase in food and rental allowances.

The compromise now must be approved by both the House and Senate before it goes to President Truman.

One possible hitch still remains. The conference committee dropped a Senat proposal for \$45 a month extra combat pay for all Korean veterans and Rep. Brooks (D-La.) said he regretted that action.

Sen. Russell (D-Ga.), head of the conference, said House spokesmen would not accept the Korean pay provision because they had held no hearings on it.

Whether the Senate will accept the compromise without the combat pay provision remains to be seen.

The compromise measure follows generally the pattern of a military pay increase voted by the house in January. It approved flat 10 per

cent boost in base pay and food and rental allowances, estimated to cost 580 millions additional annually.

The Senate voted an increase of only 3 per cent in base pay with flat dollar boosts in food and rental allowances, with most of the latter going to enlisted men and lower-ranking officers with dependents.

Because most privates and other low-ranking enlisted personnel have food and lodging furnished by the government and have no dependents, they would get only three dollars above their present \$75 monthly.

Privates, corporals and sergeants and corresponding ranks who do have dependents would get increases ranging from \$13 to \$19 above present pay and rental allowances.

The winners, selected by a national board of judges, are:

Norman Bissett, 11, Battle Creek, Mich., Ronald Hanle, 14, Steubenville, and Robert Rahming, 12, Bridgeton, N. J.

### Gov. Dewey Denies He Is A Candidate

NEW YORK (AP)—Gov. Thomas E. Dewey declared anew yesterday that he is not a candidate for president.

The 1944 and 1948 Republican nominee asked New York state's delegates to the GOP Republican convention not to vote for him at any stage of the proceedings.

Dewey told the delegates: "Everyone knows that I am for Gen. Eisenhower from the beginning to the end of this convention."

### Taft Says Money Is Wasted Abroad

HARTFORD, Conn. (AP)—Senator Robert A. Taft of Ohio, critical of the nation's foreign policy, says some of the money the United States is spending abroad could be put to better use at home.

"Gracious, when I think what could be done for education if we had only one billion dollars more!" exclaimed the candidate for the Republican presidential nomination in a speech last night. "I wonder if we have any judgment left."

Taft made what he said would be a non-political speech to some 1,600 persons at a meeting of the Connecticut association of boards of education.

His criticism of America's foreign policy, which he said should not have the purpose of raising "the standards of all the rest of the world," was not included in his prepared text. He said he had been asked to talk about foreign policy because of its effect on education.

### RELEASED IN ACCIDENT

BEAVER FALLS, Pa. (AP)—A coroner's jury last night absolved Kenneth Cline of Barberton of blame in connection with a truck-auto crash on the Pennsylvania turnpike April 8 which killed two residents of York, Pa.

If it were not for the rotation of the earth on its axis, the direction of the trade winds would always be the same.

## Slain Tipoff Man's Father Sues City

NEW YORK (AP)—Slain Arnold Schuster's father has filed a \$500,000 damage claim against the city, charging negligence.

The claim was filed yesterday by Max Schuster, Brooklyn store proprietor and administrator of the son's estate.

The son, 24-year-old pants salesman in his father's store, was shot to death near his Brooklyn home March 8.

The unsolved slaying was three weeks after young Schuster spotted fugitive bank robber Willie (the Actor) Sutton on a subway train and caused his arrest.

The claim charged that the murder was due to the "negligence, carelessness and recklessness" of the city.

It further accused the city of "recklessly and carelessly" exposing young Schuster to danger; failing to take proper precautions for his safety; failing to supply a bodyguard; and "suffering and permitting him to go about unguarded . . . and to be shot and killed."

Police officials have said young Schuster and his family spurned offers of a police bodyguard after he recognized Sutton from a picture and gave the tipoff.

If city officials do not allow the claim, counsel for the father could file suit in the state supreme court.

## Stars of 'The African Queen'

A PEN-DRAWING of Humphrey Bogart and Katharine Hepburn as they appear in John Huston's engrossing Technicolor film drama, "The African Queen," which was filmed on location in Africa as an Horizon-Romulus Production. It opens as a first run on May 11, at the Salem Drive-In Theater through United Artists release.

In this stirring adventure romance, Katie, playing the prim, straight-laced sister of a missionary, takes revenge on a gin-swilling river boatman, played by Bogie, by emptying every bottle he has stashed away on the little boat carrying them down river bent on a fantastic mission. The hurt and disgusted expression on Bogart's face even funnier when it is recalled that there are on liquor stores along the Congo. As Bogart complained, "those crocodiles must have had one heck of a time!"

## Economic Equity

House hearings on the Wage Stabilization Board, if conducted searchingly, can reveal where a managed economy is going.

It arrived at its destination tentatively in the WSB recommendations for satisfying a powerful union in the steel dispute. That is not the only tentative destination it has reached.

In the railroad dispute, where the problem of railroad rates also is the subject of government decision, the same WSB withheld a settlement which would have been favorable to another powerful union.

But in each case, a government board ceased to be a referee in a free bargaining contest and became an economic policy-maker. It undertook to rule on what its members thought was proper policy from their point of view, regardless of the points of view of the parties concerned in the disputes.

Moreover, because of WSB's composition—six union spokesmen and six management spokesmen, balanced by six "public" members—the decision reflected chiefly the viewpoints of the six "public" members.

Most of these men are relatively young. They share a background of intensive training in economic theory; they have no common background of economic experience. Like the theorists of the British Labor party who attempted to manage a complicated economy by edict, they are unable to command the confidence of either management or unionists.

The quickest way to spot the absurdity of what they have tried to do is to imagine what would happen if the balance of power in the WSB were held by six theorists as partial to management as the six theorists of the existing board are to labor unions.

No one would welcome that kind of a destination for a managed economy, either. If the House investigators get at the truth, no one will welcome a managed economy. It cannot be sold in this country if the contents are known.

## Solicitude For Gamblers

If the Supreme Court upholds a ruling by the U.S. District Court in Philadelphia that a stamp fee collected from bookmakers and numbers operators is unconstitutional, a couple of thousand officials in local governments are going to feel like going fishing.

They are not going to be able to understand the reasoning of Judge George A. Welsh, who wrote the ruling. Judge Welsh concludes that it is discriminatory against gamblers to require them to make available certain information about themselves and their employees while qualifying for a \$50 gambling stamp.

He further reasons that this is improper use of the taxing power, because it gets into the field of morals. The fact here is, of course, that the federal government is willing to issue the stamps to anyone who applied. It is not until local enforcement officials use the stamp lists to find out who the registered gamblers are that morals get into the picture.

In all cases of legitimate business, the same type of information always is available. But when gamblers are brought into the light, where they can be counted and held accountable, tender solicitude comes to their rescue.

The stamp fee collected from bookmakers and numbers operators has put a crimp into one of the lushest of the money sources for organized vice. It would be a great pity if legalism should put a crimp in the crimp.

## The Taft Brothers

What the professional politicians will have to say about the unique situation of Robert A. Taft running for the presidency, if he is nominated next July, while Charles P. Taft runs for governor of Ohio on the same ticket is problematic.

But the thumping vote of approval given to Sen. Taft's candidacy in Tuesday's primary while Charles Taft was sweeping the Republican primary for governor does not indicate any misgivings about a brother combination in the minds of Republican voters.

On the contrary, it seems reasonable to assume that there was a mutual advantage in the primary and that there would be the same advantage if Sen. Taft became the Republican candidate for President. The friends of each man would be even more likely to assert their support for the other in a general election than in a primary.

Both represent what could be called a philosophy of dynamic conservatism in the politics of their time. While his position as a policy-maker and leader of the opposition in Congress has identified Sen. Taft closely with political conservatism, he has shown the same sympathy for constructive change that caused his brother to alienate the affections of the Hamilton County Republican organization. It opposed his candidacy for nomination as governor because he had opposed its stand-pat attitude toward civic reform in Ohio's second largest city.

## 'Natural Law'

By DAVID LAWRENCE

## Georgia Senator Replies To Catholic Editor

With all the questions being addressed nowadays to presidential candidates, none perhaps will parallel those asked of Senator Russell of Georgia, Democrat, by F. Gordon O'Neill, for 17 years editor of "The Monitor," Catholic weekly in San Francisco.

The questions, seeking to learn how the Georgia senator stands on the issue of "natural law," were sent because, as Mr. O'Neill phrased it, "this nation is being divided between those who believe man has God-given rights and duties and those who teach and are taught that there are no unalienable rights but only privileges granted by the state."

Mr. O'Neill has just distributed Senator Russell's answers to the heads of all the Catholic dioceses of the United States. He recalled that Senator Russell, who is a Methodist, supported Al Smith in 1928 and pointed out that the Georgia senator is one of the men who understands the adjustments that must be made in a free country in order that Protestants, Catholics and Jews may work together on fundamentals and keep socialism from deriving any religious sanction in American.

Here are the questions by Mr. O'Neill and the answers by Senator Russell:

1. "Q. Do you believe that men are created? If answer is yes, please state in your own words what you mean by creation, and who the creator is. This is a practical consideration because there is much material pantheism with consequent moral irresponsibility prevalent in this country."

"A. Man is created. He is created by the Lord God Almighty."

2. "Q. Do you believe that men are equal? In what sense?"

"A. Man is equal in the sight of God, for God is no respecter of persons."

4. "Q. Do you believe that man has God-given rights, that no government may deny to them? This is a practical question because it is being taught in law schools that man has no rights, but only privileges, granted by the state."

"A. Men are endowed by their creator with certain inalienable rights, such as the right to worship God as he sees fit."

4. "Q. Do you believe that man was created to live according to the law of his rational nature, or is everything he feels like doing justified?"

"A. Man is to live by his conscience, while abiding by the laws of God."

5. "Q. Does the citizen exist for the aggrandizement of the

state, or is the state but an instrument of the citizen for the common good of life, liberty, and the pursuit of happiness?"

"A. A citizen does not exist for the aggrandizement of the state. He does have duties to the state."

6. "Q. Do parents hold the first sovereignty over their own minor children subject to their meeting certain government-demanded minimum standards for health, education and conduct, or has the government superior rights to those of parents?"

"A. The parent has the first right. Both parents and children have responsibilities to the government."

7. "Q. Should the local community do for itself what it can before passing its burden to the state? Should the state do for itself what it can before passing its burden to the federal government? Or should sovereignty be transferred in all matters to the federal government?"

"A. The local community should do everything that it can to attain self-sufficiency before calling upon the state. The state should exhaust all of its means before calling on the federal government. The transfer of all sovereignty and power of the federal government will, in my opinion, ultimately result in the loss of our liberties."

8. "Q. Except for defense from foreign foes, should taxes for services grow so onerous as to prevent parents from having more than one or two children? Reference is to the 13 Russells."

"A. Taxes should never be exacted for amount greater than is absolutely needed for the preservation and function of the government. It may well be worth-while to do without some things in order to have others, more important, including children."

9. "Q. Should there be a union of minds for the enhancement of the common good between the various American governments and the various religions in the United States, or should government absolutely ignore religions?"

"A. The spiritual strength of the American people has sustained our nation in some of its darkest hours. A revival and renewal of that spiritual strength will enable us to survive present dangers. While I am opposed to the establishment of a religion by the state, I believe that any government which ignores the strength derived from religion, as I interpret this word, is doomed to decay and destruction. Any sane government in this country will recognize the importance of spiritual values while refraining from usurping the functions of religion."

## Sacrifice To Spite

By TRUMAN TWILL

One of the things TV will do increasingly, we suppose, is to transmit more off-the-cuff interviews like the recent one with a steel-mill worker who wanted to beat up Federal Judge David A. Pine for ruling Harry Truman out of bounds.

In a more rational era, an American who popped off in that fashion would have done so in the privacy of his own home, or perhaps the corner saloon; he wouldn't have been merchandised to millions with a point of view unworthy of a patriot.

But in this less rational era that sort of thing may be a better reflection of circumstances as they are than was possible in the old days when things were left unsaid because they were better left unsaid. Many an American has been so systematically embittered against a society in which the rights of all citizens are protected by the same laws that he is ready to sacrifice his own rights to feed his own spite.

Not one American in 10,000 will read Judge Pine's important decision. The vast majority will never know or care that if the Supreme Court upholds the decision it will be a little safer in the future for every American who claims an inalienable right to own what he has won the right to possess—money, his wife, his children, his belongings.

Could it be that Americans who talk so much about the difference between a government of laws and a government of men are only listening to marbles rolling about in their empty heads—that they do not understand what it means?

Unless some men in Government have the backbone to reaffirm from time to time that the law still means what it always has meant, other men will contend for their own purposes that it has come to mean something else. The issues they choose for the contending will be picked for the spitefulness they engender. That way the would-be tyrants can be sure most of the suckers never will see the trap for snapping at the bait.

Forget which side of the steel strike you're on, because the fact is you are in the middle.

There is only one side of the issue of the people's vs. politicians' rights that any American can be on—the constitutional side. The Constitution was written for the express purpose of keeping the boys with the bull necks and the big ideas from trampling the God-given right of human beings who wanted to be free from despotism.

Down through the years a thin line of men who knew how to think things through have reassert-

ed that the Constitution still meant what it meant in the beginning. Meanwhile, other men have never tired of trying to torture the language of the Constitution into saying something else—invariably something dictated by a burning issue which offered an excuse to exploit spitefulness.

Please, Mr. Steel-Mill Worker, don't threaten to hang Judge Pine because he had the courage to say no politician can flout the Constitution. The next time the politician might be working the other side of the street. That's why it's vital to have a government of law—so these fellows can't get away with anything. They never tire of trying.

Stephen Collins Foster, the noted composer, came to Cincinnati in 1846 to act as a bookkeeper for his brother who was in business there, and it was here he wrote "Oh Susanna."

Ohio ranks sixth as a dairy state, and has a total of 1,060,000 milch cows.

## Hollywood Meets A Crisis

By GEORGE C. SOKOLSKY

For many years those who managed the motion picture industry took the position that they were not concerned with the policies of those engaged in industry; that the only criterion of employment was talent.

In 1947, this question became a national issue because of the appearance of "friendly" and "unfriendly" witnesses before the House Committee on Un-American Activities, some of the unfriendly ones going to prison for contempt. It became clear during those hearings that Communists had infiltrated the industry.

The motion picture companies met at the Waldorf-Astoria where decisions were made not to employ known Communists or those who took advantage of the Fifth Amendment to avoid admitting that they were Communists. This placed the industry in an awkward position legally.

ON THE OTHER HAND, voluntary groups of citizens, acting independently of each other, not only picketed theaters, but also, by word of mouth, denounced certain motion pictures and their personalities. There is no way of combatting such movements of the people, as no one can be forced to spend his money in a theater.

The top management of the industry, faced by these facts, were compelled to meet this problem by practical measures. Obviously, the presence of Communists, pro-Communists, fellow-travelers and opportunists, who made bad records for themselves, was encountering a sales resistance.

The industry organized to combat criticism, but most efforts failed because the records of the individuals criticized could be voided by themselves and their own subsequent conduct.

Human beings frequently develop strange habits which may be most annoying, although not dangerous to life or general health.

Q—I sleep lightly and wake frequently during the night. Often on awakening, I discover that I have been vigorously grinding my teeth. What might cause this? Could it appreciably wear off the enamel?

A—Teeth grinding is quite common among children and not exactly rare even among grownups. It probably should be considered a habit disorder, closely related to other forms of sleep disturbances, such as wakefulness, nightmares and talking during sleep.

Physical factors such as diseased tonsils, especially in children, should be ruled out, but a more likely cause is tension and anxiety. Attention should be paid to eating foods which are not irritating to the particular person, and perhaps diet habits should be changed somewhat, particularly in the evening.

Possible causes for tension should be considered. It is possible that the teeth would be worn down by too vigorous and long-continued grinding.

Q—Is it true that a woman cannot conceive if she breast-feeds a baby and has no period during lactation?

A—Menstruation can occur in women who are nursing their babies, and indeed pregnancy can take place during the period of lactation before the return of the menses. In other words, it is not true.

Beginning last summer, a series of meetings between some motion picture producers and a few active anti Communists resulted in a formula which is now being tried with a surprising measure of success. This formula may be stated as follows:

1. As long as such organizations of the people as the American Legion, the Catholic War Veterans, etc., take a definite position on the employment of Communists, pro-Communists, etc., in the motion picture industry, a picture in which they appear is defective and bad business;

2. No person can clear another of the taint of being favorably disposed to our national enemy, Soviet Russia. Only the person himself, who made the record, can unmake it, by a frank statement of the facts of the relationship;

3. It is not necessary for such a person to hire anyone to clear him; all that needs to be done is for him to look at his already reported record and to write a letter to his employer stating the facts as he knows or believes to be;

4. Such letters are circulated, at first confidentially, and after criticism for the record, among those most active in their opposi-

tion to the employment of Communists in motion pictures.

THIS FORMULA has encountered less resistance than had been anticipated. First tried out by Columbia, it is now in full force at Twentieth Century-Fox and M.G.M. Warner Brothers, R. K. O., and Republic have programs of their own which have been effective.

The simple method of self-confession is more realistic and to the point for so large a number of persons, many of whom have truthful explanations for their acts; some are obviously innocent of bad intent.

The enthusiastic and active co-operation of top management was not anticipated. Thus far, each of the companies adopting the program has used its own methods. The task is not easy because often involved are contractual relations, prospective lawsuits to which the Communists always resort, and loss of revenue on pictures already made. Nevertheless, the program of meeting these problems continues in a day-by-day fashion. There is no reason why any motion picture, radio or television company, any more than any other American enterprise, should employ a known Communist.

## Dublin Cop

By MILTON MARMOR  
(For Hal Boyle)

## Drunks Are His Only Problem

DUBLIN, IRELAND  
An Irish cop on his Dublin beat wears his night stick as some other gentlemen would a cane. Not only is it ornamental, but he'd also feel undressed without one.

In front of the Gresham Hotel on busy O'Connell Street on a Saturday night a policeman stood. He looked all of his 6 feet, 175 pounds as he watched many of his countrymen who had come to windowshop on Dublin's main street, or to chat awhile with the gentlefolk who sometime pass the time in the one or more public taverns.

He appeared to have a moment to himself and so it came to pass that the patrolman on his beat heard himself asked the following question:

"How often, Mr. Officer, do you find it necessary to use that nightstick? On unruly ones, I mean."

MR. OFFICER THOUGHT and thought again and then he ventured the reply: "Very seldom." Pursued as to the last time he used the truncheon, the policeman searched his memory and finally recalled:

"Six, or it may have been eight years ago." The occasion was some sort of political demonstration. The people themselves rarely get out of hand, it appears, because the Irish apparently are quiet, law-abiding citizens who don't go in for rowdy activities, even on Saturday nights.

The young patrolman—he said he could not give his name—had been on the force ten years. He had two uncles who had been on a police force in America—New York, of all places. One of them, Mike, came here during the war. "I think he's retired now; I lost track of him, but I heard he was wounded in some skirmish in New York."

THEY RARELY have "skirmishes" in Dublin. Last December some armed men stuck up the Provincial Bank on Thomas Street and shot a cashier. The three were captured and quickly got 14, 10 and 8 years. They still talk about that shooting affray—it was the first criminal gunplay in Dublin in 14 years.

Dublin cops don't carry guns. Most of their work centers about traffic problems and on Saturday nights helping those who have celebrated too much get back on their feet and home to bed. Only disorderly ones find themselves taken to prison and they usually get let off when they sleep it off. Four drunks a night per cop is the average.

Not that Dublin has no crime. There is a spate of house-breaking now and then.

Our policeman, as do most of the Dublin cops, come from the country. He said the Dublin young ones seek a more profitable field of work. An ordinary officer on duty 20 years earns 8 pounds 3 weekly (\$22.82). A sergeant gets 9 pounds 13 (\$27.02).

FORTY YEARS AGO—The board of education has recommended that a new high school is necessary to provide ample room for Salem's school population.

## Drive Carefully; Save Lives, Dollars

Next month automobile insurance rates are scheduled to go up an average of 20 per cent around the nation. This continues a steady post-war trend.

The insurance companies blame the higher rates on several factors. Chief among them is the cost of settling property damage claims. Motorists appear to be far more "claim conscious" than ever. Furthermore, the cost of automobile parts is up from 10 to 25 per cent in the last half year or so.

All this makes grim reading for the automobile owner. But just possibly it has its bright side. If accidents are so costly, and this cost is reflecting itself consistently in rising insurance rates, the time may come when the average motorist may decide that he can't afford to have an accident.

Then, at long last, he may decide to drive carefully, saving his life at the same time he saves his dollars.

Every time a circus reaches Washington it adds to the number of clowns in our nation's capital.

## Taft, Eisenhower Differ On Foreign Aid Spending

WASHINGTON (U) — Foreign aid was a clearcut Republican presidential campaign issue today with the two leading contenders for the nomination on record as sharply split over the amount needed to finance the program successfully.

Gen. Dwight D. Eisenhower, agreeing with administration leaders, said congressional proposals to cut foreign aid by one billion dollars would be "seriously felt." A greater cut, he said, might endanger U. S. security.

Sen. Robert A. Taft of Ohio promptly replied that a cut of even two billion dollars in the

\$7,900,000,000 asked for the next fiscal year starting July 1 "would in no way endanger the program or the security of the United States."

Taft told a news conference in Hartford, Conn., that he flatly disagreed with Eisenhower's views, expressed in a message to Sen. Connally (D-Tex.), chairman of the Senate Foreign Relations Committee.

Eisenhower said in his cable to Connally that the nation's mutual security program is gradually stabilizing the international scene, even two billion dollars in the

Commenting on Eisenhower's cable chairman Russell (D-Ga.) of the armed services group and a Democratic presidential nominee candidate, told a reporter he wanted something more definite from the man he called "the principal architect of the (mutual security) plan."

Russell himself sent a cable to Eisenhower just before Connally released his exchange with the general yesterday, asking if Eisenhower believed the \$6,900,000,000 voted by the Senate foreign relations committee was "adequate to the job of building the defenses of the free world against aggression."

In his message to Connally, Eisenhower, who is leaving as Supreme Allied Commander in Europe June 1 to return to the United States, said:

"It is apparent that any cut in the program would inevitably tend to curtail or retard the buildup of forces. . . .

"An aggregate reduction of the order of a billion dollars would be heavily and seriously felt. . . .

"Any cut materially greater than this would create such difficulties that a drastic revision of the whole program might well be indicated and might therefore endanger the proposed military buildup now visualized, and which I consider essential in the interest of U. S. security."

Russell told newsmen his committee was principally worried as to whether direct foreign military help, which comprises about 70 per cent of the bill, might hamper the equipping of American armed forces.

On this point the Senator said, Defense Secretary Robert A. Lovett expressed the opinion that the American buildup and the mutual security program could be handled jointly.

### Horsemeat Said Found In Samples

FINDLAY (U) — A Cleveland Health Department chemist yesterday testified he found horsemeat in 16 of 18 samples of meat distributed by Kay Brand Meat Packing Company of Findlay.

Earl L. Miller, bacteriologist for the Cleveland Health Department, testified at the trial of Joseph Kirchner, president of the Buckeye Packing Co., formerly known as the Kay Brand Packing Co. Kirchner is one of nine Kay Brand officials and employees indicted by a Hancock County grand jury on charges of selling horsemeat in the guise of beef.

Kirchner faces 60 counts ranging from adulteration of food products to bribery of a food inspector. Miller said 16 of 18 samples of meat taken from Kay Brand wholesale outlets in Cleveland showed "positive identification of horsemeat." He also said four samples were negative and 14 were questionable when tested for beef.

Earlier, George C. Petry, chief food inspector for the Cleveland Health Department, testified he visited the Kay Brand plant in early 1951 and found sodium sulphite barrels. Petry said sodium sulphite was used to make meat appear fresher and using it is against the law.

One of the greatest accomplishments of civilization has been the remarkable progress made in increasing the average life expectancy. In the Middle Ages the average life span was twenty years. In the seventeenth century it had advanced to twenty-five years. Through the years there has been a steady increase until, today, the life expectancy is sixty-three years for men and sixty-six for women.

Authorities agree that the most productive years of life lie between the ages of forty and sixty. Medicine and the allied sciences have thus been indirectly responsible for all progress. Good minds that had sickened and died before reaching their zenith now live to apply the judgment and experience of maturity. As pharmacists, we are proud of our function in the distribution of lifesaving medical supplies.

# CHILDREN'S SPRING BOOK FESTIVAL

Officially May 10 - 18 this year. At our Book Shop, we try to make every day 'book festival' and invite the 'browser' to come in and do just that — "browse" — with the hope, of course, that he may find something he wants. If not here—we are happy to order. There are books for everyone who likes to read—or look at pictures!

Incidentally — BOOKS are tops for Mother's Day!

# Mrs. Roy Gilmore Feted At Party

In farewell to Mrs. Roy Gilmore (Maude Jones) a group of close friends honored her at a pre-nuptial party Monday evening at the home of Miss Inez Heisler at Diehl Lake.

Entertaining with Miss Heisler was Miss Eleanor McMurray. When the guests came to the party they had "an important date" in mind and wore or did something relating to that date.

Prizes in the games went to Mrs. Walter Hofmeister and Miss Phyllis Welsh. The honor guest received a gift from the group. Refreshments were served at card tables.

Mrs. Gilmore was married Thursday morning and will be at home to friends after Tuesday in her home near East Palestine.

Retiring heavy wool draperies for the summer and putting up cotton hanging saves the wool for longer usefulness in cold seasons.

ON STATE STREET

IF RUSSIA DECIDED to launch an attack against the western world, this is the way it would come, say military authorities. Main onslaught of the 14-pronged attack would come from East Germany, with France bearing the heavy brunt. NATO defensive strategy would be to attempt to slow the attack with available forces, with reserves being mobilized and atomic bomb attacks aimed. The Soviet is believed to have 175 active divisions, 40,000 tanks and 40,000 planes, but the experts don't think the Communists will strike.

## Petals Fall From Area Early Apples

COLUMBUS (INS) — A fruit spray report from Ohio State University said today that petals in

central Ohio have fallen off all early apple varieties and are beginning to leave the Rome variety.

The report said the petal-fall spray is being applied to early apple varieties as far north as the Van Wert, Crawford, Wooster, and Salem areas. In the Lucas, Fremont, Ottawa, Lorain, Geauga and Lake areas, early apple varieties are in full bloom and the late varieties are full pink.

No apple scab lesions were reported from commercial orchards although the damp weather over most of Ohio recently is favorable for the occurrence of scab infection. The rate of scab spore discharge in the state remains high and apple growers were advised to keep the foliage covered with fungicide ahead of rainy periods.

To date fire blight, which was so prevalent in southern Ohio last year, has not been reported.

In the Salem area petals are falling off sour cherries. Shuck-split sprays of fixed copper, or bordeaux mixture is recommended in sour cherries and lead arsenate to control leaf spot and brown rot should be included to control curculio and slugs.

Napthalene acetic acid, a hormone material, is advised for application at or shortly after petal-fall for best results as a thinning agent. The report said the closer to petal-fall applications of hormone material is made on any variety, the less material will be needed to achieve thinning.

## Search Still Unsuccessful For Escapees

CLEVELAND (U) — The unsuccessful hunt for two mental hospital escapees kept southwest Cuyahoga County in a tizzy of door-locking and rumors today.

Tips from nervous residents so far have netted police one milkman, one gas meter reader and two tourists from Boston, all released after questioning.

But the pair who overpowered two guards and fled from the Lima State Hospital for the criminal insane Monday night still were at large.

At Strongsville, where the runaways abandoned the second of their two escape cars, Police Chief Robert Poots said he felt they were "still around here" and would appear in search of food. The reports of sighting the fugitives were not confined to that area, however. One tip sent Cleveland police hustling to an east side rooming house, and another came from West 25th Street near downtown Cleveland.

Dr. E. Stanley Anderson, assistant superintendent of the Lima institution, said both fugitives have split personalities and at times suffer delusions. Although they are unpredictable

in their actions, Dr. Anderson said, they might know what they are doing "until they get in a jam."

## To Close Ohio Plant

CHICAGO (U) — Swift and Company yesterday announced it will close its soybean processing plant at Fostoria, O., May 11 because of serious operating losses. C. T. ## Harriman Says U.S. Must Act

Nation Has Choice For Peace, He Adds

DAYTON (AP) — Mutual Security Administrator W. Averell Harriman last night told the Dayton Council of World Affairs that America faces a choice of either peace or war.

He warned "this is a time when hesitation or failure to act can be just as disastrous to peace as an act of aggression."

Harriman, candidate for the Democratic nomination for president, said he favored the following points for foreign policy:

1. Continuation of the Point 4 program.
2. Continued military and economic aid to free nations.
3. Prompt checking of Russian aggression.
4. Use of German troops in Western European Army.
5. A more powerful "Voice of America."

"Some people say we can't afford this," he continued, "but never in history has our nation been so strong economically." Harriman added "We are much more secure today (than in 1945 when he was U. S. ambassador to Russia...) and the prospects for peace are good."

He said America has taken the initiative in foreign policy despite talk that our policy has been one of containment of Russia.

Harriman predicted that continued American support of Allies will make Russian leaders change their aggressive policy.

America started the world away from World War III through check of aggression in Korea, Harriman said.

"To me," he said, "it is unthinkable that in this, of all years, we should hear people talk of turning aside from our policy."

## East Palestine Area Combed For Fugitives

EAST PALESTINE (INS) — A pack of bloodhounds owned by Robert Grimm has joined a police search of the area around East Palestine for two fugitives who escaped from a Beaver, Pa., jail after assaulting a deputy sheriff.

Warden Cecil Baldwin identified the prisoners as Marino Michelletti, 28, of Pittsburgh and Fred Henry of Rochester, Pa.

Baldwin said Michelletti was awaiting trial on charges of burglary and larceny. Henry, the warden said, was scheduled to be transferred to Western Penitentiary to begin a 7-14 year term for breaking and entering.

## Motor Club Membership Reaches New Record

At a meeting of the board of directors of the Columbiana County Motor Club Wednesday evening 253 new members were approved for membership.

The board approved plans for a driver training course beginning June 1. This is the fifth year an AAA-approved course will be available in Salem and East Liverpool.

The monthly report submitted by Manager Albert P. Morris shows the local organization has 4,049 members which is the largest in the organization's history.

## 90 Employees Idle At Lisbon Vitrified Co.

LISBON—About 90 employees of the American Vitrified Co. plant on the Elton Rd. are expected to be back on the job Monday with settlement of a district clay plant strike expected over the weekend.

Members of the AFL United Brick and Clay Workers decided to strike Sunday after rejecting an 11-cent hourly hike at a meeting at Uhrichsville. The Vitrified company also has a plant in East Liverpool. An estimated 700 are idle in the district.

Settlement was expected after the industry association accepted union terms Wednesday in Akron. Operators agreed to an 8 per cent across-the-board increase.

## New Engine Arrives For Lisbon Fire Truck

LISBON—The village's main fire truck is expected to be back in action today after a new engine arrived Thursday for the truck which has been out of action one week.

Chief Thirl Flugan and Alvin Wolfe made a trip to the American LaFrance Co. at Elmira, N. Y., for the engine and a company representative from Pittsburgh was to arrive today to help install the equipment.

A piston shattered while the truck was on a run last Friday. The new engine cost \$1,700.

CHEESE without any undressing is something of a novelty in pictures. But at Pennsylvania State College, the 27th annual Dairy Show is quite a serious occasion. Hence, coed Ida Anne Wylie of Summit Hill, Pa., queen of the event, appears in routine campus garb as she participates in the cheese-cutting ceremony.

Extension of the Columbiana sanitary sewerage system to the Mahoning County side of County Line Road is being considered by the State Highway Department. Homer Harrold, superintendent of water works, has already submitted cost estimates to the department at its request, and highway representatives are expected here soon to confer with the board of public affairs on the project.

Construction of the Route 14 bypass along the northern edge of Columbiana by way of County Line Road will require a fill of several feet, which will cut off drainage from the septic tanks of residences on the north side of the highway.

Members of the Rotary Club provided transportation Wednesday for the 58 seniors of Columbiana High School and Fairfield Centralized High School to the Firestone plant in Akron. They were entertained at lunch at the Firestone Country Club.

Eighty mothers, including guests, were present for the informal reception tendered mothers of children who will be of kindergarten age next fall by the Kindergarten Mothers Club in the home economics room of the High School building Wednesday evening.

The club decided to have a picnic for the children in Firestone Park Wednesday, May 21.

Chief of Police R. G. Millen reported to council this week April receipts of \$828.88 in his department, \$308.80 fines and costs and \$828.88 meter collections. There were 12 traffic arrests.

# Cleveland Whips Yankees, 12-5, Encounters Browns Tonight

**CAN HE DO IT?**—Middleweight Champion Ray Robinson (right) lifts crown from the head of Light Heavyweight Champion Joey Maxim in Madison Square Garden, New York. He'll try to do the same thing formally when the two meet in the boxing ring at Yankee Stadium June 23 with Maxim's title on the line.

## Yankees Drop Third Straight As Tribe Takes Series; Bosox Fall To Chicago White Sox, 4-2

(By The Associated Press) It said here a month ago Cleveland couldn't win the pennant until they learned how to win at Yankee Stadium. Well, bud, they seem to learn fast.

Not since 1947 had the Indians swept a series in the New York Yankees' home park until they humbled the world champs yesterday, 12-5, for a third straight.

The Yankee Stadium jinx, the Vic Raschi hex, the Eddie Lopat whammy all went out the window in this first New York-Cleveland series of the season.

Raschi got his lumps Wednesday and Lopat yesterday when the Tribe's new cleanup man, Ray Boone, went on the warpath. Boone struck the big blow of the game, a three-run homer in the fifth. It hardly mattered that Cleveland poured over six runs in the ninth.

**BOBBY FELLER** WAS the official winning pitcher as the Tribe finished its first Eastern trip with a fine 7-3 record. But Feller needed solid help from Bob Lemon. The Yanks nipped Feller for 12 hits in 5 2/3 innings. Lemon gave them only one the rest of the way—a ninth-inning homer by Gene Woodling.

This crushing defeat, sinking the Yanks three games under .500 and 5 1/2 games off the lead, came at a particularly embarrassing moment. The latest averages show Archie Wilson, one of the men sent to Washington in the Irv Noren deal, leading the league with a .481 batting average.

Winging home after this successful tour, the Indians were only 18 percentage points behind the leading Boston Red Sox. All even in the "games behind" they trailed in points because they have lost one more while winning one more.

**THE CHICAGO WHITE SOX** salvaged the finals at Boston, 4-2, on Saul Regolin's five-hit pitching. Ed Stewart's two-run homer off Loser Ray Scarborough in the seventh was the crusher, ending the White Sox's six-game losing streak.

Big Jim Rivera, the St. Louis Browns' slumping rookie flash, snapped out of it with a ninth-inning home run that beat Philadelphia, 9-8. Rivera, benched for weak hitting, got into the game just in time to make a sensational catch in the sixth.

Washington struggled 11 innings to a 4-4 deadlock with Detroit in a "suspended game" that will be completed before a May 31 night game. Play was halted after the 11th to let the Tigers catch a train for home and a date with Chicago this afternoon.

Dave Koslo continued his mastery over the St. Louis Cardinals as the New York Giants tightened the National League race with a 3-0 win. The defending champs now are only 28 percentage points behind the idle Brooklyn Dodgers.

**THE SURGING GIANTS** rushed through their first Western trip with a glittering 9-1 record. They have won 13 of their last 15 games. Stan Musial, who went hitless against Koslo last year in 17 trips, had a pair of doubles. It wasn't enough to save Gerry Staley from his first defeat after winning four in a row. Three hits by Whitey Lockman led the Giant attack.

Willard Marshall tripled with the bases loaded and singled home a fourth run in the Boston Braves' 6-4 triumph over Chicago. The loss dropped the Cubs into a third-place tie with idle Cincinnati. The Philadelphia at Pittsburgh game was postponed because of rain and wet grounds. Brooklyn and Cincinnati were not scheduled.

Top man on the University of Alabama golf squad is Bobby Hill of Rochester, N.Y.

## Indians, Red Sox Share Top Honors Beat Yankee Stadium Jinx, Sweep Series

**CLEVELAND** — Back from their best initial Eastern trip in four seasons, the Cleveland Indians open their first long home stand against the St. Louis Browns tonight.

By a 12-5 triumph at Yankee Stadium yesterday, the Tribe made a sweep of the series in the ball park where they could win only one game last year. And the victory moved them into a virtual tie with the Boston Red Sox for first place.

Taking both games at Boston and three in New York enabled the Indians to turn their poor-starting eastern junk into a big success—seven triumphs out of 10 games.

The five-game winning string may be just setting the stage for Southpaw Tommy Byrne of the Browns when he goes against the Tribe's Early Wynn (4-1) tonight at 8:15 p.m. (Starting time for night games this season is 15 minutes earlier than in other years).

**BYRNE HANDED** Cleveland its first beating this year after the Tribe had won seven in a row at the outset. And Byrne was the fellow who halted Cleveland's longest victory skid last season at 13.

The Indians haven't beaten the Browns this year. St. Louis won two night games there the second week of the campaign, and in three spring exhibitions copped all three.

The Browns play four games here, ending with a double header Sunday. There are three games with New York starting Tuesday night, then Washington, Philadelphia and Boston come to the stadium for two each.

**SHORTSTOP RAY BOONE** was the batting hero for the Indians yesterday. Hitting in the cleanup position he drove home five runs. His single after Al Rosen's triple in the third tied the score at 3-3.

He homered after Bob Avila singled and Rosen walked to put Cleveland in front to stay in the fifth. And in the six-run ninth-inning rally, he drove home a run with a fly.

Harry Simpson keynoted the game when, as the first man up, he slapped an inside-the-park homer that rolled 457 feet to the bleachers. Steady Eddie Lopat, the crafty southpaw who holds a 33-8 lifetime record against the Tribe, lasted only five innings and yielded half of Cleveland's 14 hits.

Bob Feller was nipped by the Yankees for 12 hits, and after Gene Woodling and Phil Rizzuto singled in the sixth with two out, Bob Lemon came into guard the 6-4 Cleveland lead. Lemon allowed only one hit the rest of the way—a homer by Woodling to open the Yanks' half of the ninth.

**AFTER BOB HOGUE** kept Cleveland scoreless for three innings, the Indians exploded with six runs off Bob Kuzava and Joe Ostrowski in the ninth. The Yanks scarcely looked like world champs that frame.

Birdie Tebbetts started it all by singling and beating Kuzava's throw to second on Lemon's sacrifice. Simpson's punt filled the bases, and the runs came in on flies by Avila and Boone, Dale Mitchell's single, Bobby Brown's fumble of Jim Fridley's grounder, and Bob Kennedy's two-run double, a short fly to center that fell among Irv Noren, Hank Bauer and Gil McDougald.

## NEO District Tennis Tourney Stated May 17

The southern half of the north-eastern Ohio district will hold its annual high school tennis tournament in Akron, May 17.

The district is composed of schools from Mahoning, Columbiana, Stark, Portage, Trumbull, Medina and Wayne counties. Any high school in these counties which is a member of the Ohio High School Athletic Association is eligible to participate in the qualifying tourney.

Last year, Jim Hurlburt, 1951 graduate of Salem High School, was the runner-up in the singles to Akron South's Blanford Fuller.

Entries for the district meet should be sent to C. H. Vincent, meet manager, Ellet High School, Akron, Ohio.

## Canton's Fawcett Stadium Site Of '53 Ohio All-Star Grid Game

**COLUMBUS** — Ohio's High School Football Coaches Association today awarded its 1953 All-Star North-South football game to Canton.

The annual all-senior contest will be held the night of Aug. 15 in Fawcett Stadium as the climax of a clinic and coaching school starting Aug. 3 when the players—cream of the state's scholastic talent—open practice.

Jimmy Robinson, Canton Lehman coach, was named director of the event. Robinson, former president of the coaches' association, was a leading figure in promotion of the All-Star contest when it was staged in the Stark County city in 1947 and 1948. The 1952 North-South classic will be held in Akron's Rubber Bowl next August.

Canton made the lone bid for the All-Star game which had been scheduled originally for the north-western sector of the state. Under a new ruling, the coaches association receives a flat fee of \$750 or 5 per cent of the gross gate receipts.

In another action by the coaches at a session lasting until the wee, small hours, the state high school athletic board will be requested to regulate the starting and closing dates of all scholastic sports seasons.

**GLENN ELLISON**, Middletown coach, moved that the state board be asked to put some sort of limit on the other sports, and Jim McDonald of Springfield seconded the motion.

The motion was passed by a two-to-one majority, after a previous motion by Seraphim Pope of Lima Central had been voted down. Pope advocated a referendum by the school principals, but the majority of the mentors thought that was the wrong approach.

Biggest "beef" of the football mentors was against the unlimited practice sessions allowed basketball players, permitting overlapping into the football season. The State High School Athletic Association now has no restriction on practice, except on football.

Football schools which hold spring practice of four weeks are banned from fall practice prior to Sept. 1, while those which hold no spring workouts may start the season's preparation Aug. 20. Basketball teams have no restrictions.

**THE COACHES** were in town for the annual Ohio State football clinic getting under way today and winding up with Saturday's regulation game by Coach Woody Hayes' varsity players.

A scheduled meeting of the Ohio Scholastic Conference failed to materialize last night when Mel Knowlton of Alliance High School, president of the tough up-state circuit, announced his Aviators were dropping from the loop for financial reasons.

Coach Les Binkley of Toledo Waite and Chuck Mather of Massillon were trying today to get the remnants of the league together for a session, hoping to hold it together. League members, after the withdrawal of Alliance, are Canton McKinley, Massillon, Warren, Toledo Waite and Mansfield.

Coaches McDonald of Springfield, Ellis of Middletown and Pope of Lima Central spent several hours trying to find the non-existent league meeting. All said they wanted to schedule games for 1953 or 1954, and that they were interested in keeping the league alive.

Middletown, Springfield and Lima Central, along with Portsmouth and Hamilton, make up the Southern Ohio Conference. The three Southern mentors, and Bill Peterson of Mansfield, said they thought a post-season game between the two conference champions might go a long way toward deciding the state grid championship.

Sponsors of the All-Star game at Akron announced they had lined up as teaching talent such star performers as Ivy Williamson of Wisconsin, Red Dawson of Pittsburgh, Woody Hayes of Ohio State, Otis Douglas of Arkansas, Blanton Collier of the Cleveland Browns and Sid Gillman of Cincinnati for a series of talks.

**TODAY'S CLINIC** at Ohio State features "Rusty" Russell, Southern Methodist coach, who was scheduled to explain the aerial offense which has troubled the Bucks the last two years. A banquet is scheduled tonight, but the coaches have decided to eliminate the vaudeville entertainment which has been one of the highlights.

## Babe Zaharias Leads Lady Money Winners

Corcoran, tournament director for the Ladies Professional Golfers Association, said Louise Suggs ranked second with \$4,069.25 and Betty Jameson third with \$3,920.25.

Five years ago — Brooklyn sold Howie Schultz to Phillies for \$50,000.

Ten years ago — Alsb won the Preachness in record breaking time of 1:37.

Twenty years ago — The St. Louis Cards returned Pitcher Bennie Frey to the Cincinnati Reds.

## Weather Observer Speaks To Kiwanis

Contrary to the numerous jokes that have been made about them, the weathermen are 90 percent accurate in their predictions, Clyde Thomas of Salem, government observer, told Kiwanis Club members at a meeting Thursday noon in the Memorial Building.

Mr. Thomas said that because Salem is blessed with a high altitude and surrounding valleys, it is not nearly as hard hit as the lake region to the north and not too subject to tornadoes, which hit the areas of least resistance.

He said the wind velocity in the center of tornado cones sometimes reach as high as 400 miles an hour, while the wind velocity of hurricanes average about 60 miles an hour.

When a tornado is forecast, the safest place to hide is the southwest corner of the home. The tornado cuts a swath of about 200 yards wide, he commented.

The Big Snow of 1950 only occurs about once in 50 years, Mr. Thomas said. Prior to the time the big snow hit, weathermen predicted snow flurries. A few hours after the snow began falling, they were able to forecast how much would blanket the area, he said.

Only one hurricane ever hit this area, coming up through New Orleans, La., Mr. Thomas recalled.

## Atomic Gun

Continued from Page One

This development, he explained, involves "guided missiles and rockets to receive atomic warheads."

Pace likewise disclosed that courses in atomic warfare are being introduced in Army schools. Currently, he said, Army officers and some Army civilian specialists are attending a school at Sandia Base, New Mexico, in a study of the use and characteristics of atomic armaments.

He then added: "We intend beginning individual and unit training in atomic warfare in the near future."

Despite the building of new weapons of destruction, the Army secretary foresaw a continuing need for "many of our current conventional weapons."

"So-called 'fantastic weapons' there may be," he said, "but to rely on them alone for our protection is not only fantastic, but foolhardy to an extreme."

Meanwhile, Pace said, the Army is seeking to "stock our arsenal with weapons rather than blueprints."

## Officers Selected By County P.T.A.

Mrs. Joseph Mattevi of the Lisbon-Guilford Rd. was elected president at a meeting of the Columbiana County Parent-Teachers Association Thursday afternoon and evening at West Local School at East Rochester. About 100 persons attended.
